tapes that get the JOB DONE

POLYETHYLENE TAPE

- Conformable, waterproof, clean removal, UV resistant and can withstand the most demanding of applications

AC74 CARPET TAPE

- This double-coated tape works on irregular or porous surfaces and it's perfect for temporary holding

AC10 DUCT TAPE

- AC10 is an economical yet safe choice to seal bags of contaminated waste. It's often called "bagging tape" or "gooseneck tape" when used in this process.

PT14 BLUE MASKING TAPE

- UV resistant masking tape that removes cleanly up to 14 days
