

Packaging Service Solutions

MAC PAPERS

We help ensure your lines – and profits – keep running.

When it comes to your packaging equipment, it's critical to have a technical service team you can rely on to keep it running efficiently.

Mac Papers' certified service technicians will be there to help solve any issues you have with production. They are knowledgeable in servicing countless brands, equipment and the latest technology.

We are there for you every day to ensure your lines – and profits – keep running.

macpapers.com/packaging

Our certified packaging technicians:

- Are factory trained and have extensive experience
- Provide startup and training support
- Offer planned maintenance programs
- Respond immediately to reduce equipment downtime
- Optimize machine efficiency by improving package throughput and/or minimal material usage
- Have a local presence, which means they will arrive quickly and cost-effectively (reducing potential airfare and hotel costs)
- Work in a safe, courteous manner
